

## Mobile phone software installation instructions

1. Copy the mobile phone software to the memory card or the cell phone, and then double-click the setup wizard.

### 2. The reasons for unsuccessful installation

Because a part of software certificate signed by client self is not recognized by the cell phone, please solve this problem as follows:

Enter Menu—Tool—Set—Application Program—Program Management—Software Steup—Select All

### 3. Mobile Setting operation to connect DVR

1. Select default access: CMNET. GPRS. 3G
2. Server Address           DVR IP   Address(Such as: 121.34.39.29)
3. Server Port:             DVR Info Port   (Factory Defaults 3357)
4. Username:                admin
5. Password                 DVR HDD Format password (Factory Defaults88888888)
