

4.2.1 Change Password

For your own safety, please change your administrator default password after your first login.

After system booted up, you can see the following interface if it is your first login or you have restored default setup. See Figure 4-1. Please input old password and then input new password twice to confirm the change.

- The default administrator user name is **admin** and the password is **Admin1**.
- You can set security questions here to reset the password in case you forgot. System supports customized setup. Please note you need to set two security questions at the same time. When you reset the password, you need to answer these two security questions too.
- For reset information, please refer to chapter 4.2.2.

The screenshot displays the 'ADMIN SECURITY' configuration screen. At the top, the title 'ADMIN SECURITY' is centered. Below it, the 'User Name' is set to 'admin' in a dropdown menu. There are three input fields for 'Old Password', 'New Password', and 'Confirm Password'. The 'New Password' field has a strength indicator below it. Under the heading 'Secure Questions (Optional)', there are two questions: 'Question 1' with the value 'What's your favorite pet?' and 'Question 2' with the value 'What's your first car model?'. Each question has an associated 'Answer' input field. At the bottom of the screen, there are two buttons: 'OK' and 'Cancel'.

Figure 4-1

Click Cancel button, system pops up the following interface for you to confirm. See Figure 4-2.

Check the box here, system will not pop up the change password interface the next time.

Figure 4-2

4.2.2 Reset Password

Once you forgot password, you can answer the security questions you set in chapter 4.2.1 to reset the password.

In login interface, click . See Figure 4-7.

Figure 4-3

System pops up the following dialogue box, please answer the security questions and then input the new password twice. See Figure 4-4.

4.3 Startup Wizard

After changed admin password interface, it goes to startup wizard. Click Cancel/Next button, you can see system goes to login interface.

Tips

Check the box Startup button here, system goes to startup wizard again when it boots up the next time.

Cancel the Startup button, system goes to the login interface directly when it boots up the next time.

Figure 4-5

Click Cancel button or Next Step button, system goes to login interface. See Figure 4-6.

System consists of three accounts:

- **Username:** admin **Password:** Admin1 (administrator, local and network)
- **Username:** 888888 **Password:** 123456 (administrator, local only)
