UPSPRO2000
Protected Battery Backup Power Supply

Overview

The Orion Power Systems UPSPRO2000 is the most cost effective solution for managing and protecting power for your critical computing, network, and peripheral equipment. With advanced power protection features such as automatic voltage regulation, the UPSPRO2000 is a step above most entry-level ups systems. Surge protection and a USB communication port with real-time power monitoring software are standard on all Office Pro G2 series systems.

Features

- Line Interactive design
- Automatic voltage regulation (AVR)
- LCD provides real time status
- Eight outlets (4) Surge only (4) Battery Backup outlets
- High surge rating of 490 joules
- Network surge protection via RJ45 connection
- Stay informed with Free monitoring Software
- Easy change user replaceable batteries

Specifications

Model	UPSRPO2000
Nominal Voltage	120V
Voltage Range	82~148
Frequency (HZ)	50/60Hz
Voltage - On Inverter	120V +/- 10%
Wave Form	Utility-True Sine Wave / Battery-Simulated Sine Wave
Interface Type	1 HID USB port
Monitoring / Shutdown Software	Windows Vista/7/8/10
Operation Temperature	32°F - 104°F
Relative Humidity	<90%
Quality Assurance	ISO 9001 Certified
Markings	UL 1778 / TUV
Battery Type	Sealed Lead Acid
Battery Recharge Time	8 hours to 90%
Voltage	12VDC
Rating (VA/Watts)	1000 / 600
Input	5-20P
Output	5-15R
Runtime	20min @ 300W, 6.5min @ 600W, 3.5min @ 900W, <2min @ 1200W
Dimensions	7" x 5.5" x 12"
Weight	24lbs
