

FULL SYSTEM SOLUTIONS:

# NDAA & TAA/NDAA COMPLIANCE

Optiview is pleased to offer multiple lines of fully NDAA and TAA/NDAA compliant CCTV equipment. No matter the requirements of the job or application, Optiview continues to have full stock of NDAA and TAA/NDAA compliant surveillance, networking, data comm, access control, solar solutions and more!

## GOVERNMENT FUNDING; THE LAWS & REQUIREMENTS

As with any job, projects on government property or with government funding are subject to US rules and regulations. Not all requirements are the same, and not every security system can be installed on the job, so you need to ensure that you are meeting the requirements put forth.

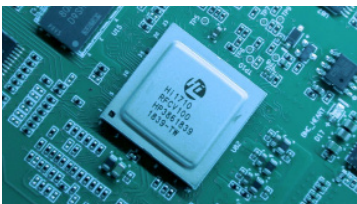

### WHAT IS NDAA COMPLIANCE?

Section 889 of The John S. McCain National Defense Authorization Act prohibits the U.S. government from procuring video & telecommunication equipment from certain Chinese companies and their subsidiaries.

### WHAT IS TAA COMPLIANCE?

The Trade Agreements Act requires the U.S. Government and affiliated entities to purchase end products that are U.S. - made or are made in countries that are recognized as supporting fair and open international trade.

### DON'T BE FOOLED!

Just because the product might be made in a TAA compliant country does NOT mean that there is not a banned component, such as a specific chipset, somewhere inside the equipment. This means that while it is still TAA Compliant, it is not NDAA compliant.

### OPTIVIEW HAS YOUR BACK

Optiview has cameras, video recorders, network switches, solar carts and trailers that will meet all of your requirements no matter the job. Not only that, but our warehouse is completely stocked with all of our equipment including NDAA and NDAA/TAA compliant equipment.
